August 7, 1989

Mr. Allen Childs
Mine Engineer
Genwal Coal Company
P.O. Box 1201
Huntington, Utah 84528

Dear Mr. Childs:

Re: Deficiency, Amendment, Small Area Exemptions, Genwal Coal
Company, Crandall Canyon Mine, ACT/015/032-89(A), Folder #2,
Emery County, Utah

The Division has completed review of your company's submittal received July 25, 1989. The plans were reviewed by Rick Summers, Reclamation Hydrologist, of the Division's technical staff. Please resolve the following deficiencies as outlined in the attached memo by September 1, 1989. Please submit eight (8) copies of revised maps and plans.

If you have any questions, please call Rick Summers or me.

Sincerely,

Susan C. Linner
Reclamation Biologist/
Permit Supervisor

RE: Small Area Exemptions (received July 25, 1989), MRP
Amendment ACT/015/032 - 89 - A, Genwal Coal Company,
Crandall Canyon Mine, ACT/015/032, Folder #2,
Carbon County, Utah

SUMMARY:

The above referenced proposal was submitted in response to a Conditional Approval issued by the Division on June 26, 1989. The information submitted is adequate to meet the conditions of that approval.

However, the material does not address the sediment control measures for and identify the USFS parking area as a small area exemption as identified in the Ten Day Notice issued by the Office of Surface Mining. Existing sediment controls are currently in place for this area (site inspection). It will be necessary for the applicant to submit narrative identifying the sediment controls for the site, period of proposed use, and a map identifying this area as a small area exemption prior to final approval.

RECOMMENDATION:

Request the above information for the USFS small area exemption be submitted prior to final approval.
